A surrealist illustration featuring a textured, orange-brown wall. A yellow ladder is positioned vertically, with a small figure of a man in a blue suit climbing it. The ladder leads up to a rectangular opening in the wall, which is shaped like a window. Inside this opening, another figure of a man in a blue suit is standing on a red surface, looking out. The view through the opening shows a blue and white striped building, possibly a skyscraper, against a white sky. The overall style is dreamlike and symbolic.

23日济莱城际铁路环评公

记者在济南市政府官网的民生连线上看到一则留言,大概说出了不少周边居民的心声。留言如下:济南市2016年7月份发布的济南市雪山区规划,并没有提到绕城高速段的济莱城铁,周边分布有中新国际城、龙湖春江郦城、永大颐和园、保利花园、鲁能七号公园、待规划的万达城、

高铁噪声较高,噪声在150米范围内衰减很小,即距车轨150米范围内随意远近噪声差别不大,最高可达到85分贝,超过噪声卫生标准规定的工作地点最高分贝值。假如小区距离铁轨在150米之内或者与150米相差不多,岂不是要日夜遭受噪音之苦。
